## VALUABLE SERVICES EXCLUSIVELY FOR TANGRAM BROKERS AND NON-PROFIT CLIENTS

Tangram provides a robust and exclusive offering of unique services to support the nonprofit social service industry. We want to help our brokers create value for their clients and encourage them to reduce their insurance exposures and help them face business challenges. That is why we will continue to introduce services that make a difference to our brokers and the nonprofit community.

**Claims Handling (through LWP and CCMSI)** - When a nonprofit client places insurance with Tangram, they can be assured they have a partner and advocate in the event of a claim. For our California nonprofits, we are partnered with a boutique claims handling firm called LWP. LWP has been operating in the California marketplace for years and understands the unique work comp claims environment in the state. For our clients throughout the rest of the country, CCMSI directly handles the claims. Both CCMSI and LWP work tirelessly to ensure the best outcomes for our nonprofit clients, so they can continue doing important work in our communities. *Claims handling features include: Dedicated adjusters, online reporting, quarterly claims reviews, trend reports.*

**Risk management Services (through Overland Solutions and YORK)** - Just as claims handling is paramount, Tangram is committed to helping nonprofit clients prevent and mitigate the exposures that contribute to claims activity. Tangram works with a national risk management firm to provide a wide variety of loss control services. We take a customized approach to each client since each type of social service organization has varied operations and unique challenges.

*Risk management services include: Onsite surveys, IIPP audit, ergonomic assessments, driver safety programs, annual loss control plan and more!*

**Data Back-Up (through Mozy)** - As more information is stored on-line and nonprofit operations move towards a fully paperless environment, we recognize how invaluable digital data is to business. This is why Tangram and ProSight have partnered with an industry-recognized backup provider Mozy, an EMC Company, to deliver data protection at less than half the price of other leading competitors. Protect your data for as little as \$4 per month. This service and special pricing is only available for Tangram nonprofit clients.
