SUBMISSIONS@TANGRAMINS.COM

There are over 2 million janitors and cleaners in the US today. Tangram has an appetite for this class plus many other classes under the building services umbrella.

"My janitorial client had coverage with a general P&C carrier for years. Tangram highlighted the major coverage gaps in their current policy form. When I moved my client to the Tangram program, they had the benefit of voluntary property damage coverage, lost key coverage and many other features. I know I'm doing my job as a broker when my client has coverage that is specialized, not generalized."
