What to Do When an Injury Occurs:

- Service American Workers' Compensation Program
 - Employer's Approval for Medical Attention
 - Optum First Fill Card
- ✓ Complete your accident investigation and preserve evidence as soon as possible. **Do not delay reporting the claim.**

Complete the Supervisor's Report of Injury or Illness. This form serves to memorialize very important information about the incident.

- ✓ Identify and gather witness information immediately.

The most effective investigations are conducted immediately after an incident occurs. Witnesses are still available, facts are fresh on witnesses' minds, and evidence is still at the scene. It is particularly important to gather witness information any time an injury involves a motor vehicle, a machine, or occurs at a location other than the normal workplace.

- ✓ Preserve evidence

It is very important to take the necessary steps to gather information and to preserve any evidence (i.e. a broken chair or machine part). It may be possible for LWP to recover our payments from another party, thus reducing your loss experience.

Please retain a copy for your records, and forward a copy of your investigation to LWP at:
